Diploma in Electronics Engineering	Maharashtra State Board of Technical Education	74.29 %	2013 - 2017
10th Standard	Maharashtra State board of Secondary and higher Secondary Education	85.82 %	2013

Skills

Programming Languages: JavaScript, TypeScript, HTML, CSS, Python

Developer Tools: VS Code Editor, Git, GitHub

Technologies/Frameworks/Libraries: ReactJS, Redux, Bootstrap, Tailwind CSS, Nodejs, ExpressJS, Mongoose ODM, Sequelize ORM, Docker

Databases Management System: MongoDB, MySQL

Cloud Computing Platform: AWS (Amazon Web Services)

Projects

- **Full Stack Web App classrooms using MERN Stack**

Demonstration Video = <https://youtu.be/Fc4qWPOs8s8>

Deployed Link = <https://classroom-frontend-klx8.onrender.com>

GitHub Repository = <https://github.com/ameysanyal/classroom>

- Used ReactJS, Context API, Tailwind CSS, Nodejs, ExpressJS, MongoDB, Mongoose ODM
- Used BcryptJS for encrypting passwords
- Implemented Protected Routes on frontend
- Used JSON Web Token for Authentication and deployed the project on render hosting platform
- Developed a full stack multi-user web app Classroom using MERN stack, where principal (admin) can register new users that is teachers and students, then each user (teacher and student) can login with their Email and password, Each type of user has different scope of functionality

- **Users Management Application using MERN stack, Redux**

Demonstration Video = <https://shorturl.at/DXo4P>

Deployed Link = <https://heliverse-client-eight.vercel.app>

- Used Redux for State Management in this project
- Implemented Pagination, Filtering, Searching on Mock Data

- CURD on Users and Users can be added in a Team
- Deployed on Vercel
- **Todos Web App using MERN Stack**
Deployed Link = <https://todos-frontend-5llw.onrender.com>
 - Made a basic todos application with CRUD operation using React, Nodejs, Express, MongoDB and deployed both frontend, backend on render.
- **CRM Statistics Application**
Deployed Link = <https://crm-statistics.netlify.app>
Demonstration Video = <https://shorturl.at/WpDLJ>
 - Used Nextjs framework and Chartjs library for implementing this CRM Statistics Page
- **Chrome extension for scraping LinkedIn profile details**
Demonstration Video = <https://shorturl.at/PMqYs>
 - It is a chrome extension for scraping linkedin profiles details and stores it in mysql database
 - Used DOM Manipulation JavaScript Methods, Nodejs, ExpressJS, Sequelize ORM, MySQL
 - It extracts and Stores LinkedIn User Name, Followers, Bio, Location, About, Connections and Store it in MySQL Database

Certifications

- **JavaScript Algorithms and Data Structures**
FreeCodeCamp, Online
<https://www.freecodecamp.org/certification/ameysanyal/javascript-algorithms-and-data-structures>
- **Linux Unhatched,**
Cisco Networking Academy
https://www.credly.com/badges/80140f9e-99a6-4a5e-8a11-2275302a14ed/public_url
- **AWS Cloud Practitioner Essentials,**
AWS skill builder
<https://www.credly.com/badges/22264306-46a9-4bc1-8da6-0bf959e91098>
- **SQL Certificate,**
HackerRank
