Objective

To obtain an entry-level position at a MNC IT company where I can utilize my educational qualifications, skills and experience contributing to the organization's success while gaining valuable industry experience.

Internship

NodeJS Developer Intern, Oyelabs Technologies

06/03/2025 - Present

- Developing API endpoints Call Center SaaS application using **NodeJS**, ExpressJS, JOI Schema validation, Sequelize ORM, Postgresql Database, Used **AWS S3** for storing images and JSON configuration files, Integrated **Stripe Payment gateway**, Used Twilio for call, messaging in application.
- Developed a tool to automate sales transactions from Shopify to Tally Prime using Node.js and Express.js, leveraging the xml2js library to convert Shopify order data received via webhooks.

Experience

CollegeDunia Web Pvt. Ltd.

04/10/2021 - 16/08/2024

At CollegeDunia, my day-to-day responsibilities involved a combination of **Data Management, CMS management, and data organization**:

- Developed and structured **web pages** using **semantic HTML** for better accessibility and **SEO**.
- Utilized **VS Code editor and HTML Cleaner Tool** to format and optimize content efficiently.
- Managed and updated website content via the wordpress **CMS backend**, ensuring seamless integration and consistency.
- Organized website data on **Google Sheets**, improving accessibility for the team.
- Maintained and structured different sections of the **Content Management System (CMS)**

Education

Course / Degree	School / University	Grade / Score	Year
Electronics and Telecommunications Engineering	Sant Gadge Baba Amravati University	7.24 CGPA	2021 - 2024
Diploma in Electronics Engineering	Maharashtra State Board of Technical Education	74.29 %	2013 - 2017
10th Standard	Maharashtra State board of Secondary and higher Secondary Education	85.82 %	2013

Skills

Programming Languages: JavaScript, HTML, CSS, Python, TypeScript

Developer Tools: VS Code Editor, Git, GitHub, Docker

Technologies/Frameworks/Libraries: ReactJS, Redux, Bootstrap, Tailwind CSS, Nodejs, ExpressJS, Mongoose ODM, Sequelize ORM, Vitest and Supertest

Databases Management System: MongoDB, MySQL

Cloud Computing Platform: AWS (Amazon Web Services)

Projects

- **Video Calling MERN Stack Project with Typescript**

- Deployed Link = <https://streamifyit.netlify.app/login>

- GitHub Repository = <https://github.com/ameysanyal/video-call-mern-typescript>

- Rewritten JS MERN stack project with typescript, tested backend with vitest and supertest, containerized backend using docker, Implement CICD workflow, Deployed NodeJS backend on AWS EC2 with Nginx as reverse Proxy.

- **Full Stack Web App classrooms using MERN Stack**

- Demonstration Video = <https://youtu.be/Fc4qWPOs8s8>

- Deployed Link = <https://classroom-frontend-klx8.onrender.com>

- GitHub Repository = <https://github.com/ameysanyal/classroom>

- Used ReactJS, Context API, Tailwind CSS, Nodejs, ExpressJS, MongoDB, Mongoose ODM
- Used BcryptJS for encrypting passwords
- Implemented Protected Routes on frontend
- Used JSON Web Token for Authentication and deployed the project on render hosting platform
- Developed a full stack multi-user web app Classroom using MERN stack, where principal (admin) can register new users that is teachers and students, then each user (teacher and student) can login with their Email and password, Each type of user has different scope of functionality

- **Users Management Application using MERN stack, Redux**

- Demonstration Video = <https://shorturl.at/DXo4P>

- Deployed Link = <https://heliverse-client-eight.vercel.app>

- Used Redux for State Management in this project
- Implemented Pagination, Filtering, Searching on Mock Data
- CRUD on Users and Users can be added in a Team
- Deployed on Vercel

- **CRM Statistics Application**

- Deployed Link = <https://crm-statistics.netlify.app>

- Demonstration Video = <https://shorturl.at/WpDLJ>

- Used Nextjs framework and Chartjs library for implementing this CRM Statistics Page

- **Chrome extension for scraping LinkedIn profile details**

- Demonstration Video = <https://shorturl.at/PMqYs>

- It is a chrome extension for scraping linkedin profiles details and stores it in mysql database
- Used DOM Manipulation JavaScript Methods, Nodejs, ExpressJS, Sequelize ORM, MySQL
- It extracts and Stores LinkedIn User Name, Followers, Bio, Location, About, Connections and Store it in MySQL Database

Certifications

- **JavaScript Algorithms and Data Structures**

- FreeCodeCamp, Online

- <https://www.freecodecamp.org/certification/ameysanyal/javascript-algorithms-and-data-structures>

- **Linux Unhatched,**

- Cisco Networking Academy

- https://www.credly.com/badges/80140f9e-99a6-4a5e-8a11-2275302a14ed/public_url

- **AWS Cloud Practitioner Essentials,**

- AWS skill builder

- <https://www.credly.com/badges/22264306-46a9-4bc1-8da6-0bf959e91098>

- **SQL Certificate,**

- HackerRank

- <https://www.hackerrank.com/certificates/dale98740074>
